Abstract

The economic stimulus package signed by President Barack Obama on February 17 included a \$19 billion investment in health information technology. How can we best take advantage of this unprecedented opportunity to computerize health care and stimulate the health information economy while also stimulating the U.S. economy? A health

SMART Apps in Germany

- BIH: Integration Hub - Using Apple Watch to track ECG data
- MII Partners use SMART on FHIR: Mint Medical GmbH, Snke OS GmbH, also within the Radiological Cooperative Network (RACOON) project by NUM
- ISiK Connect (by Gematik) builds on SMART on FHIR
- No significant market of SMART Apps in Germany
 - Software manufacturers have no pressure to innovate
